CORMACK LAUNCHES NEW 38 MM CRTE CAPS

The local market has struggled for many years with a lack of a good performing 38mm Child Resistant closures with an easy to identify external tamper evidence system.

Cormack have now launched the solution. This new cap functions easily on both Glass and Plastic containers for the consumer, and has been tested and passed to ISO 8317-2015.

Ideal for both health care products and chemical products that would be beneficial for both child resistant and tamper evidence on the one pack.

Available in a variety of colours subject to volumes or straight from our stock product range.

Further details and the option for a **Free Sample Pack** can be found on our Product of the Month page
