

For metal containers

## TS60 Press-In Closure

The TS60 Press-In Closure is a plastic closure system for 57 DIN Openings on Closed Head Drums.

The system combines a plastic screw-cap, a press-in neck with easy-tear membrane, and optional venting for hot-fill applications.

## TS60 Press-In Closure

### How does it protect?

The TS60 Press-In Closure is designed for ease of use and security. It is an all-in-one solution, ensuring simple and correct installation for quality protection. The tamper-evident, ring-pull membrane must be removed before pouring. The screw cap is lightweight yet durable and comfortable to use. Easy re-application effectively reseals the contents of the container.

### Ensuring Maximum Security Worldwide

Combined with Tri-Sure Closures global network of sales and service centers, technical support and tooling, the reliable TS60 really is the first choice for companies that value the ultimate solution for protecting their quality contents.

### Options

- Optional ventilation for hot-filling applications

### Thoughtful Design

The oversized and cantilevered pull ring facilitates comfortable and easy tearing of membrane.

Quality material, pleasing finish and smooth, secure turning action and engagement speak volumes for the quality of the product sealed with a Tri-Sure TS60 Press-In Closure.

Ergonomic grip formations on a low-profile cap ensure the cap can be reliably and safely re-applied by hand to protect the remaining contents and the environment, and to minimize waste.

### Advantages

- ✓ Integrated closure solution simplifies installation and ensures proper operation.
- ✓ Low-profile cap facilitates drum stacking.
- ✓ Consistent Press-In design for automatic filling line application.
- ✓ Tamper evident.
- ✓ Optional vent for hot-filling of drums.

The first impression of a quality product should never be a difficult, uncomfortable or ineffective closure. Packaging frustration can drive even loyal customers away from a good product. The TS60 Press-In Closure ensures the user is fully satisfied with the entire experience of using your product.

As expected of the world leader in industrial closure systems, we provide a complete system to support application and removal of TS60 Press-In Closure. Our technical staff can also offer practical advice on achieving optimal sealing and upgrading your current container with the TS60 Closure System.
